The Holiday Inn Sandton is proud of its Environment and is always looking at new ways to go Green and try to combine our Social Responsibility program into that as well. We are involved with recycling of all our waste, amongst many others, we donate all our paper to a recycling company, who then recycle and resell and give any profits to the SPCA (Society for the Prevention of Cruelty to Animals) or Hospice (a home for terminal cancer patients). Another way we are going Green is by making use of energy saving light bulbs throughout the Hotel as well as the installation of the Rain Maker Shower head. It is a nature friendly, water saving mechanism enabling us to utilise a smaller percentage of water whilst still giving our guests a great showering experience. We also offer an environmentally friendly option with the servicing of your room and replenishment of your hotel amenities, which in turn assists us in the decrease of detergent pollution as well as water and energy conservation. An all round Feel-Good-Green experience!
