Please make sure that you have read the numerology description on our website: www.namaste.co.za (under the numerology tab) and that you agree with it. If you do not agree with it, you will battle to read your chart. Please note that the numbers never lie and that they are never amiss. When you read this chart, some things will stand out to you. Some you won't agree with. Those things which you feel are the total opposite to you - you'll find it's what people think of you. Remember that you have your own opinion of yourself and others have another and never the twain shall meet © ALSO - a big also... Should you still strongly disagree, then chances are you are receiving it from someone close to you. Read the chart with this in mind. When you get to those things which make you uncomfortable (like not you), ask yourself;

1. Has anyone in your life ever commented on me being like this / acting this way?
2. Is there / has there been anyone in my life that I am experiencing this energy from?

08-13 years

20-30 years As do all of us born in the 1900's, its business, excitement, children, new things etc... Only the 10/1 can match the blessings that come with the 19/1. While it certainly doesn't promise a life's path without some bumps in the road, this number does indicate all will be well. It is our Cosmic Nurturer. Life flourishes under its radiant beams. It provides the illumination to find Truths and lights one's path so they do not get lost. In the tarot, it is the card of the Sun and to stand in the rays of the Sun is to shine. To absorb its energy promotes growth, exceptional physical and mental health, and good fortune. The Sun is empowering, elevating and filling those who bask in it with confidence and a sense of self-worth. To have this number anywhere is truly a gift and blessings of children.

19/1

30-40 years

40-50 years Here you will return to your overall childhood number. Anything you have not dealt with, as a child will come back to literally "haunt" you. Whether that is good or bad. Start looking to the past and try resolve what is there so you do not need to live it again. Messages repeat when you don't learn the lesson. Ask questions like; What did I judge my parents for? What could I have done better? What is it that I don't understand - Those questions will be answered in real life, by you living them!
